IFCHASETHENHIRE@GMAIL.COM
JR DEV/NO DEGREE

I'm a web developer who wants to use front and backend tech, preferably with JavaScript, to build a meaningful product with an awesome team.

PROJECTS

ApplyPass

Most likely how you got this application. ApplyPass automates the job search process – sending multiple applications with the click of a button.

Technologies

JavaScript

Memesearch

Node app with upload, comment, favorite, and caption capabilities for memes. Includes profile customization and friends list management.

Technologies

Node.js, MongoDB, JavaScript, jQuery, Passport.js, Handlebars, Express, JWT, Multer, SendGrid, HTML, CSS

LonelySim

Frontend escape room-type game built in HTML and JavaScript

Technologies

JavaScript, jQuery, HTML, CSS
